Tutte le finiture potranno subire nel tempo variazioni di colore dovute alla luce, ai vapori e all'invecchiamento e una difformità rispetto allo stato originario di consegna o di rappresentazione nel catalogo non potrà costituire motivo di contestazione e/o vizi del prodotto. Menzionate variazioni non costituiscono né costituiranno vizi o difetti del prodotto stesso.

Per i piani in marmo e granito, considerando che il taglio proviene da blocchi naturali, non viene garantita l'uniformità del colore e della grana.

All finishes may be subject to changes in colour due to light, steam and ageing over time and a deviation from the original condition on delivery or the representation in the catalogue can not constitute grounds for claims and/or product defects. Said changes do not represent nor constitute flaws or defects in the product itself.

For marble and granite surfaces, considering the cut comes from natural blocks, the uniformity of colour and grain cannot be guaranteed.
